Amazing opportunity for a Family Physician to take over a FHO practice of approximately 600 rostered well managed patients at Five Points Family Health located at Yonge and Eglinton. This opportunity is available as the current MD is moving and would start in June 2024. The practice is made up of patients ranging in age from 0 to 90. Routine screenings are up to date and charts are well maintained.

The office is shared with 4 other supportive physicians and we are part of a larger congenial FHO group of 20 family doctors. Our office has dedicated administrative staff and a RPN. This is a permanent job position with flexible working hours and the opportunity to increase your practice size if desired. There is also the option to bring your current practice with you to the clinic if desired. Low overhead. We are using Telus PSS. New grads are welcome!
