Join us and be a part of this exciting journey!
We are building a new hospital facility and expanding our programs and services. West Park Healthcare Centre is a University of Toronto affiliated rehabilitation and complex continuing care Centre with 294 inpatient beds, and a 200 bed Long Term Care facility. The Centre provides a number of highly specialized provincial, regional and local programs and has earned an international reputation for clinical excellence, research and education. In 2024, we will open our new 730,000 square foot world-class hospital facility, which will transform the 27-acre campus, and incorporate the best and latest in architectural design, emerging technologies and stunning therapeutic landscapes to help patients in their journey from crisis to hope.

We are currently recruiting for an Attending Physician to provide daytime weekend coverage for our Long Term Ventilation (LTV) Program.

Our 69 bed LTV Program houses clinically stable patients who remain ventilator dependent. It has been designated as the Provincial Centre of Excellence for LTV. The Attending Physician providing weekend medical services to inpatients on this unit will be part of the wider medical group including three (3) Respiratory Specialists, one (1) Primary Care Physician, one (1) Clinical Fellow, two (2) Nurse Practitioners, and a comprehensive interdisciplinary team. In addition to providing direct weekend medical care, the Attending Physician will participate in the regular comprehensive hand-over (Fridays and Mondays) to ensure continuity of care.

This part-time position would be of interest to Primary Care Physicians or Hospitalists interested in maintaining health in those requiring LTV by preventing unnecessary transfers to acute care through early detection of clinical change. Patients in the LTV unit have both medical and psycho-social dimensions. Remuneration will be through the Alternate Payment Plan.

Job Requirements:
- Current CMPA membership
- Registered and a member of good standing with the College of Physicians and Surgeons of Ontario
- Ability to perform assessments, diagnosis, treatment and health education and other medical functions as required according to the College of Physicians and Surgeons of Ontario standards or practice and West Park Healthcare Centre’s policies and procedures
- Interest in respiratory care

Responsibilities:
- Rounds and supervision of the care provided on an LTV unit on Saturday and Sunday
- Availability by phone (daytime) when not in house
- Use of an electronic patient record (training provided), as required
- Conference rounds Friday and Monday with the Multidisciplinary Team

To join our team, please forward a letter of interest along with you curriculum vitae to:
Dr. Bikramjit Dhillon, Chief of Staff (c/o Peggy Stegmaier, Administrative Assistant, Medical Affairs)
